EDUCATION

DMI College of Engineering
B.Tech in Artificial Intelligence and Data Science

2022 – 2026
Chennai, India

EXPERIENCE

Trainee Intern
Hyundai Transys Lear

Oct 2023 – Oct 2023
Sriperumbudur, Kanchipuram

- Gained hands-on experience in automotive manufacturing, contributing to process optimization and product testing.
- Collaborated with cross-functional teams to support engineering and production projects, ensuring quality and efficiency
- Supported continuous improvement initiatives by identifying inefficiencies and productivity.

Data Analyst Intern
Vultureline Private Limited

April 2024 – May 2024
Chennai, India

- Collected and analyzed data to help Vulture Private Limited make better business decisions.
- Created basic reports and dashboards using Excel and Power BI.
- Worked with team members to find trends and improve company performance.

AI & ML Intern
MINDFULAI Technologies

Sep 2025 – Oct 2025
Chennai, India

- Collected, cleaned, and preprocessed large datasets to ensure data quality and prepare them for machine learning model development.
- Designed, developed, and trained machine learning models for real-world applications, improving prediction accuracy and performance.
- Performed exploratory data analysis (EDA) to identify trends, patterns, and key insights that supported data-driven decision making.
- Evaluated and optimized model performance using metrics such as accuracy, precision, recall.

PROJECTS

Serenity AI Chatbot | HTML, Tailwind CSS, JavaScript, Flask, REST APIs

June 2025 – Oct 2025

- Created an AI-driven chatbot to deliver automated responses and enhance user interaction experience.
- Utilized natural language processing (NLP) techniques to effectively comprehend and address user inquiries.
- Integrated the chatbot with a web interface employing HTML, CSS, and JavaScript for real-time communication.

Smart Intrusion Detection System | Python, OpenCV, TensorFlow, YOLO, CCTV

Jan 2026 – Present

- Developed a real-time intrusion detection system using Python and OpenCV for live video monitoring.
- Implemented machine learning models (YOLO) to detect unauthorized persons and identify anomalies.
- Built a web dashboard using HTML, Tailwind CSS, JavaScript, and Flask with REST APIs for alerts and monitoring.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, SQL, JavaScript
Web Technologies: HTML, CSS, Tailwind CSS, React, Node.js
Frameworks: Flask, FastAPI
Libraries: pandas, NumPy, Matplotlib, Ultralytics
Tools: Git, Docker, VS Code
Cloud: AWS, Google Cloud Platform
