SUMMARY

AI & Data Science graduate with hands-on experience building computer vision and NLP applications in Python. Skilled in YOLO, OpenCV, TensorFlow and Flask. Seeking an AI Engineer role to build and deploy real-world AI systems.

TECHNICAL SKILLS

AI & Computer Vision: OpenCV, YOLO (Ultralytics), TensorFlow, NLP, Object Detection, Real-time Video Processing

Languages: Python, JavaScript, SQL, Java, C/C++

Backend & Deployment: Flask, FastAPI, REST APIs, Docker, AWS, Google Cloud Platform

Tools: Git, VS Code

PROJECTS

Smart Intrusion Detection System

Jan 2026 – April 2026

Computer Vision Project

Python, OpenCV, TensorFlow, YOLO, CCTV

- Built a real-time intrusion detection pipeline with Python and OpenCV for live CCTV video monitoring
- Implemented YOLO models to detect unauthorized persons and flag anomalies
- Developed a Flask REST API and web dashboard (HTML, Tailwind CSS, JavaScript) for alerts and monitoring

Serenity AI Chatbot

Jun 2025 – Oct 2025

Natural Language Processing Project

Python, Flask, REST APIs, JavaScript, Tailwind CSS

- Built an AI-driven chatbot that automates responses using NLP techniques
- Exposed the model through REST APIs and connected it to a web interface for real-time chat

EXPERIENCE

Data Analyst Intern

Apr 2024 – May 2024

Vultureline Private Limited

Chennai, India

- Built Excel and Power BI dashboards and analyzed data to support business decisions

AI & ML Intern

Sep 2025 – Oct 2025

MINDFULAI Technologies

Chennai, India

- Preprocessed datasets and trained machine learning models for real-world applications
- Evaluated and optimized model performance using accuracy, precision and recall

Business Development Executive

June 2026 – Present

Sunrise Technologies

Chennai, India

- Translate client needs into technical requirements and work with engineering teams on solutions

EDUCATION

DMI College of Engineering

Chennai, India

B.Tech in Artificial Intelligence and Data Science

2022 – 2026
